HM300BKS

Snap-Top Battery Box™

Impact, UV, And Contaminant Resistant. Fully Ventilated To Release Gases.

All NOCO battery boxes meet US Coast Guard Code (USCG) of Federal Regulations. Extremely rugged, structural reinforced battery boxes that provide uncompromising protection for any battery application. Manage your marine, RV, trailer, or stored batteries with ease of mind, knowing that the batteries are protected from any outside contaminants, and the internal reservoir makes sure anything on the inside, stays inside.

Impac{bar}t Resistant
Designed with an engineered polymer that maintains its impact properties down to -20 degrees Fahrenheit.

UV Resistant
Designed with UV inhibitors and color stabilizers to prevent structure degradation, and color fading.

Made In USA
We strive to create only the best. Every NOCO battery box is designed, engineered, and made in the USA.

Ventilated SAFE SECURE
Meets the USCG Code of Federal Regulations 183.420 and the ABYC’s E-10.7 code requirements.

Snap-Top Battery Boxes Were Designed For Groups: U1, 24, 24-31, 27 & 6-Volt
