

Section 1 Identification.

Product name:

NOCO® Battery Terminal Protector

Product code:

MC303/MC303S

Product form: Solid

Other means of identification: Not available.

Recommended use: Place on battery posts to prevent corrosion and prolong battery life.

Supplier: The NOCO Company
30339 Diamond Parkway
Glenwillow, OH 44139 USA

Email: support@no.co

Emergency telephone number of the company: (800) 633-8253 (US/CA)
PERS (801) 317-0899 (International)Information telephone number of the company: (800) 456-6626
Mon-Fri 8:00am to 5:00pm MST

Section 2 Hazards identification.

GHS US classification: Not classified.

GHS label elements: No labelling applicable.

HMIS Hazard Rating

Health: 0 - Least hazard

Fire: 0 - Least hazard

Reactivity: 0 - Least hazard

Other hazards which do not result in classification: No additional information.

Unknown acute toxicity: Not applicable.

Section 3 Composition/information on ingredients.

Contains no hazardous ingredients at levels requiring disclosure by the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Section 4 First aid measures.

- General: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.
- Ingestion: If swallowed do not induce vomiting. Seek medical attention. The product contains mineral oil, which if aspirated into the lungs through vomiting, may result in chemical pneumonia.
- Inhalation: If irritation of nose or throat develops, move away from source of exposure and into fresh air.
- Eye Contact: For direct contact, flush the affected eye(s) with gentle stream of clean water for at least 15 minutes. If irritation persists; seek medical attention.
- Skin contact: Do not use gasolines, thinners, or solvents to remove products from skin. Remove contaminated clothing. Cleanse affected area(s) thoroughly by washing with mild soap and water and, if necessary, a waterless skin cleaner. If irritation or redness develops and persists, seek medical attention.

Section 5 Fire and explosion hazards.

- Extinguishing media: Water spray. Foam. Dry powder. Dry chemical. Alcohol-resistant foam.
- Unusual fire and explosion hazards: Product is not explosive.
- Firefighting instructions: Use cold water spray to cool fire-exposed containers to minimize risk of rupture.
- Protection during firefighting: Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.

Section 6 Accidental release measures.

- Personal precautions, protective equipment and emergency procedures: Ventilate area. Evacuate area. Keep upwind. Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8).
- Protective equipment for non-emergency personnel: Wear Protective equipment as described in Section 8.
- Emergency procedures for non-emergency personnel: Evacuate unnecessary personnel.
- Protective equipment for emergency responders: For further information refer to section 8: "Exposure controls/personal protection".

Section 6 Accidental release measures continued.

Environmental precautions: Notify authorities if product enters sewers or public waters. Prevent entry to sewers and public waters. Avoid release to the environment.

Methods for containment: Sweep or shovel spills into appropriate container for disposal.

Methods for cleaning up: Sweep or shovel spills into appropriate container for disposal. Wear suitable protective clothing. This material and its container must be disposed of in a safe way, and as per local legislation.

Section 7 Handling and storage.

Precautions for safe handling: Wear personal protective equipment. Do not handle until all safety precautions have been read and understood. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Conditions for safe storage: Store in a dry, cool and well-ventilated place. Keep container tightly closed.

Section 8 Exposure controls/personal protection.

Appropriate engineering controls: Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

Personal protective equipment: Protective clothing, Protective goggles, Gloves.

Hand Protection: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Change contaminated gloves immediately. Suitable gloves for this specific application can be recommended by the glove supplier. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl.

Eye protection: Chemical goggles or safety glasses.

Skin and body protection: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection: Use NIOSH (or other equivalent national standard) -approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

Section 9 Physical data.

Physical state: Solid

Appearance: Oily. Felt washer.

Color: Black. Dark. Grey.

Odor: Petroleum-like odor

Other information: No additional information available.

Section 10 Stability and reactivity.

Stability: Stable

Reactivity: No additional information.

Incompatibility: None known.

Hazardous decomposition products: None known.

Section 11 Hazardous material identification.

Acute toxicity: Not classified.

Skin corrosion/irritation: Not classified.

Serious eye damage/irritation: Not classified.

Respiratory or skin sensitization: Not classified.

Germ cell mutagenicity: Not classified.

Carcinogenicity: Not classified.

Reproductive toxicity: Not classified.

STOT-single exposure: Not classified.

STOT-repeated exposure: Not classified.

Aspiration hazard: Not classified.

Viscosity, kinematic: No data available.

Symptoms and effects: Not expected to present a significant hazard under anticipated conditions of normal use.

Symptoms and effects after ingestion: May cause gastrointestinal irritation.

Section 11 Hazardous material identification continued.

Symptoms and effects after inhalation:	May cause respiratory irritation.
Symptoms and effects after eye contact:	Direct contact with the eyes is likely to be irritating.
Symptoms and effects after skin contact:	May cause skin irritation.

Section 12 Ecological information.

There is no evidence that this would cause adverse ecological effects.

Section 13 Disposal considerations.

Waste disposal methods:	Do not discharge to public wastewater systems without permit of pollution control authorities. No discharge to surface waters is allowed without an NPDES permit.
Product/packaging disposal methods:	Dispose of product in accordance with local, county, state and federal regulations.

Section 14 Transport information.

DOT (domestic surface):	Non-regulated.
Transportation of dangerous goods:	Non-regulated.
IMO/IMDG (ocean):	Non-regulated.
ICAO/IATA (air):	Non-regulated.

Section 15 Regulatory information.

US Federal regulations:	All chemical substances in this product are listed as "Active" in the EPA (Environmental Protection Agency) "TSCA Inventory Notification (Active-Inactive) Requirements Rule" ("the Final Rule") of Feb 2019, as amended Feb 2021 or are otherwise exempt, or regulated by other agencies such as FDA or FIFRA.
International regulations:	No additional information.
US State regulations:	
Talc (14807-96-6)	U.S. - New Jersey - Right to Know Hazardous Substance List; U.S. - Pennsylvania - RTK (Right to Know) List; U.S. - Massachusetts - Right To Know List
Carbonic acid, magnesium salt (1:1)(546-93-0)	U.S. - Massachusetts - Right To Know List; U.S. - Pennsylvania - RTK (Right to Know) List

Section 15 Regulatory information continued.

US State regulations continued:

Lanolin (8006-54-0) U.S. - Pennsylvania - RTK (Right to Know) List

This product does not contain any substances known to the state of California to cause cancer and/or reproductive harm, however, the use of this product can expose you to lead, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Section 16 Other information.

Prepared on: May 14, 2015

Revised on: November 30, 2021

The above information pertains to this product as currently formulated, and is based on the information available at this time. Addition of reducers or other additives to this product may substantially alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.
